

City of Sunset Hills  
Department of Parks & Recreation  
Inter-Office Memo

TO: Mayor and Board of Alderman                      DT: March 19, 2018  
FR: Gerald Brown,  
Director of Parks & Recreation                      RE: Playground Site

The Parks & Recreation Department has been donated \$200,000 for the construction of a new playground site at 13525 West Watson Road. We have met with the Donor for the past 8 months, met with contractors/designers and discussed locations, site prep, playground components and recommend utilizing Fry & Associates based on the National Purchasing Partners Government contract (NPP). The agreement is for \$164,637.00 with Fry & Associates. Remaining of the project will be done inhouse and other miscellaneous vendors for signage etc. Total project cost of \$225,000.00

The new proposed playground includes:  
Concrete Tug Boat, swings, zip line, tetherball, benches, picnic tables, ½ mile nature trail, signage and trash receptacles.

Currently we have nothing provided for children and/or adults in this area. This will be a nice new addition to the area. We would like to thank Mr. Stieren for making this possible.

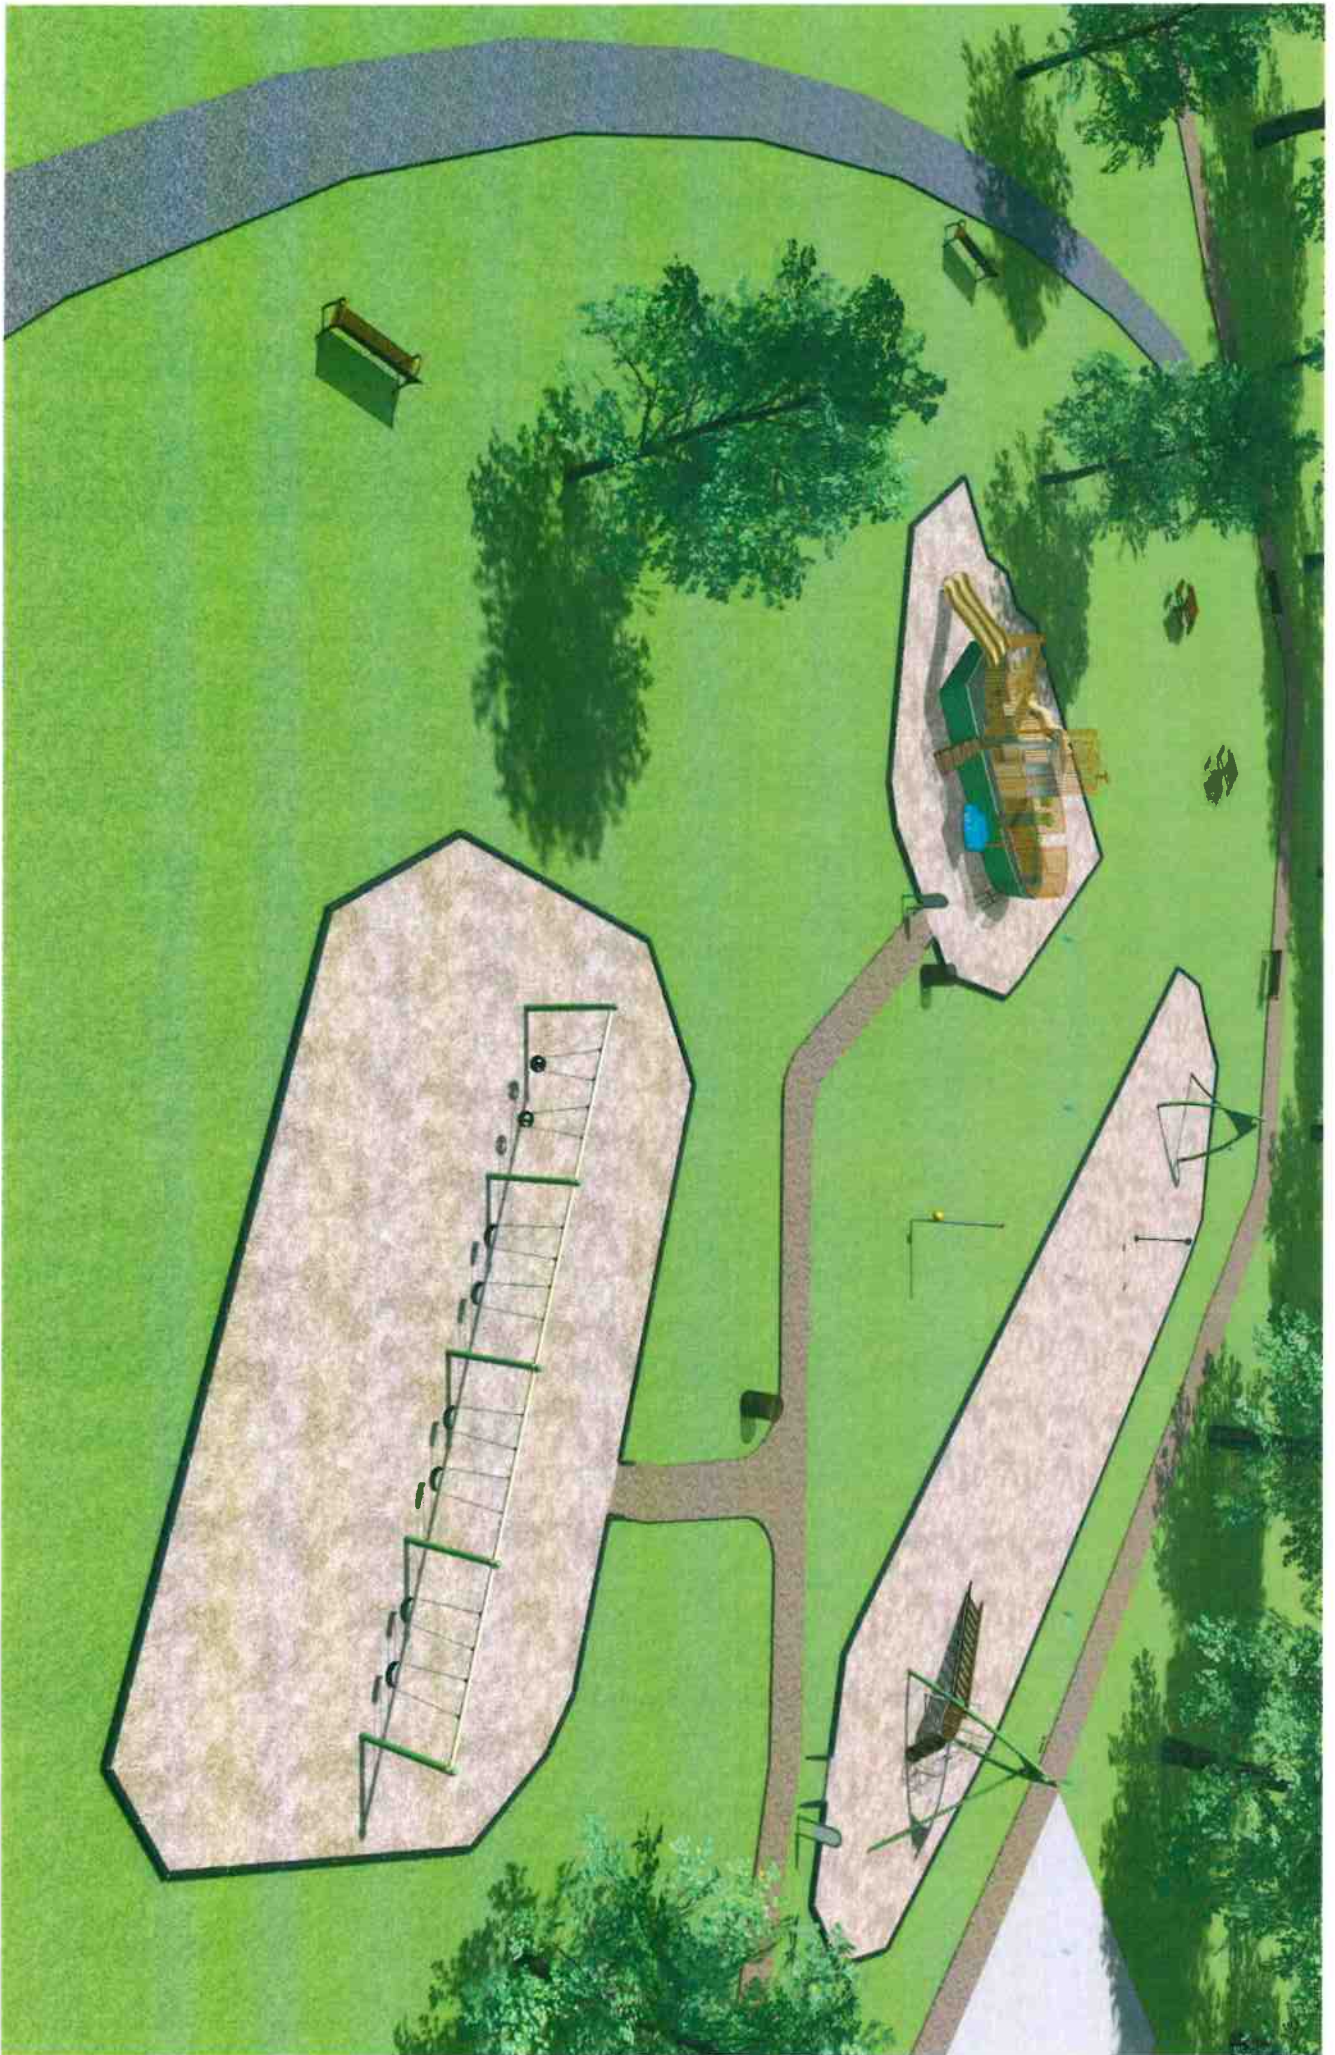

Supporting documents attached.

## Proposed Playground 13525 West Watson Road

Item	Price	Vendor	
Tug Boat (per drawing)	\$99,402.00	Fry & Associates	Bid attached
Tetherball	\$152.00	Fry & Associates	Bid attached
