BACKGROUND/DISCUSSION:

MoDOT requires a trail license agreement in addition to the previously approved maintenance agreement and to construct the pedestrian approaches for each side of the river. The trail license identifies numerous items, which have been reviewed by staff and the City Attorney

The trail license agreement allows the City to use Missouri Highways and Transportation Commission property for the purpose of providing access to the City's Trails and to provide for access to the pedestrian and bicycle trail and bridge across the Meramec River at State Route I-44. We anticipate construction completion late Summer/Early Fall.
