5-Star Homes - Alberts Laumeier Subdivision

Dear Mr. Tegethoff,

All requirements were met on the above referenced project and Missouri American Water accepted the new water main for this development back in November of 2012. The following was sent to Fivestar Homes, LLC at the completion of the job.

In compliance with the terms and conditions of the Missouri American Water Company Developer Lay Agreement 552666 dated December 14, 2011, for the installation of 424 feet of water main for the Alberts Laumeier Manor development, effective November 26, 2012, Missouri American Water Company herewith accepts all rights, title, and interest to the water pipe, fire hydrants, valves, and appurtenant facilities installed under said Agreement. In addition to accepting such title, Missouri American Water Company also accepts said water main into its water distribution system for service to its customers.

Please let me know if you have any further questions.

Sincerely,

Derek Linam
