Re: 2022 Sunset Hills Paint Striping Project – Bid Tabulation & Recommendation

Here is a paste of the bid results posted at the City of Sunset Hills website:

Bid Order	Bidder	Lump Sum Bid	Traffic Control in Bid
1	Traffic Control	\$15,000.00	\$5,000.00

Traffic Control has worked successfully for the City of Sunset Hills in the past. They have a good reputation in the St. Louis Area as a Striping Contractor. Traffic Control is one of a few contractors capable of performing this kind of work. I feel comfortable in recommending approval of this project to the low bid, Traffic Control Company.

To the right is a paste of the streets anticipated for striping this year. Geyer is a No Passing with white curb-lines, Windward Ridge includes 3 arrows, no passing & solid white lane lines, Hilltop is No Passing center line, and Alswell is a dashed yellow center line with a stop bar.
