

REQUEST FOR REQUEST FOR BOARD ACTION

REVIEWALS:

Parks Dept. - Completed
Parks & Recreation Director – Completed
City Administrator - Completed

SUBJECT: Purchase of Truck for Park Maintenance

LIST OF ATTACHED REFERENCE DOCUMENTS:

Proposal from Federico Chrysler, Dodge, Jeep and Ram
Comparable Quotes for Similar Used Vehicles

FISCAL IMPACT:

General Purchases: \$23,169.26 (Budgeted \$30,000; account #05.8000.9207)

BACKGROUND/DISCUSSION:

The Parks & Recreation Department budgeted \$30,000 to replace a 2007 pick-up truck which is currently used by Park Maintenance staff. It was determined that the 2007 pick-up will require a full engine replacement in order to be fully operational, which is not cost effective. Typically, the City purchases new vehicles using the State bid process, however, new vehicles are on a 12-month delay and are currently outside of our allotted budget due to the high demand. The proposed, slightly used pick-up truck will meet the needs of the department and is under budget. Additionally, we are able to get \$6,000 in a trade in allowance for vehicles that have exceed their useful life with the City.

STAFF RECOMMENDATION:

Staff recommends approval.
